The STEREOSHOP
Custom AV | Smart Home | Business Solutions & Install

Hello!

Thank you for choosing us this holiday season.

This year has been extremely challenging for us all.

We've fought hard and endured a global pandemic through the loyalty of our existing clients and the newfound relationships of new clients in that time.

That being said, we wouldn't be here for you this holiday season if it wasn't for **you**.

We are humbled and extremely grateful to be able to extend never before seen sale discounts as a token of our sincere appreciation.

#ThankYouForShoppingLocal

From everyone at The Stereoshop -

Thank you!

Alex Kelly
John
Josh
Justin
Mike
Tim
Wendy

THE STEREOSHOP
Custom AV | Smart Home | Business Solutions & Install

This Year - Our In-Store Experience is gonna look a little different.

Our Max Occupancy is normally 277 people. Due to COVID-19, we are able to have 55 clients at a time in the building.

COVID in mind, our distribution channels have been working **very** hard to keep us stocked or items in stock at their warehouses, some items in this ad are **not** at our store, but we will make sure you are able to get your product(s) **as fast as possible**.

Since families are at the forefront of our business, we will not be open Thanksgiving Day to allow our staff members to spend the day with theirs. To meet the needs, we may extend our offers to Sunday, Nov. 29th, 2020. Check our Facebook page for updates.

As our existing clients know, this time of the year our installation schedule fills up very quickly, but if you are a new client, please understand that we try to get everyone taken care of as fast as possible. Since we are a hybrid company, retail & a low-voltage contractor, some jobs are much larger and others and we could be booked for a few weeks in-advance.

What's going on at The Stereoshop in 2020?

We know we look a little different than you're probably used to seeing us. We hope you like our new look! But it's more than just a fresh coat of paint. It's a glimpse into the future of The Stereoshop.

The future is bright, beautiful, smarter, clearer and louder than ever before, and we can't wait to share it with you.

We know this isn't why you're here...

Ushering in a **new** era of home tech, whether it be home audio, home video, or something even as robust as complete home control through our automation platforms, ***we're not just installing complex technology***, we're finding the glitches in your daily routine. Some of which, ***you may not even know you have***.

These glitches cost you **time** and **energy**.

Our focal point for 2021 is bringing families closer together.

Whether you're watching a movie, listening to music throughout your home, tucking little ones in or even finding your zen - we want to give you that time back by giving you complete peace of mind at the end of the day knowing that your personalized home knows you and learns your routines to make doing what you love even simpler than you thought possible. ***So you can focus on what's really important.***

Being together.

We are building the future of Home - In a Stereoshop Smarter Home.
